ANTS

Lets take a little lesson from the busy little ant. Lets linger a moment close, but not too close, to a family of 'em and watch their antics. May resemble a miniature Marathon, but there's real purpose in their running, they are demonstrating that there is a little bit of brains above their biter, for their hurry-up business means they realize that now's the time to store stuff for winter use, and they are doing it. Natural history lessons over. Did you get the point? Then profit by it. Store some of our QUALITY COAL now for next winter. IT PAYS.
